

Crisis Management Training for Practicing Anesthesiologists

**On September 24th, 2010
join thousands of Anesthesiologists
who have practiced managing critical
events since 1993 at CMS**

**Qualifies for MOCA®
Part IV Credit**

The Center for Medical Simulation (CMS) is offering an intensive one day workshop in Anesthesia Crisis Resource Management for all practicing anesthesiologists. It will be held September 24, 2010. Tuition for the day long training session, including a continental breakfast and lunch, is \$1,500. This workshop is designed for those anesthesiologists seeking to practice their skills in managing critical events. Although opportunities will be made available to learn skills in managing certain specific events, the overall focus of the course is on learning the type of teamwork and generic skills needed when managing any kind of infrequent but critical event in anesthesia. Each participant requiring MOCA® certification will have a turn as the primary anesthesiologist caring for the patient.

CMS, is an endorsed program in the American Society of Anesthesiologists' Simulation Education Network, and has ensured that this course complies with the American Board of Anesthesiologists' Maintenance of Certification in Anesthesia MOCA® Part IV simulation requirements. The course has been approved for 7.5 AMA PRA Category 1 credits. These 7.5 continuing education credits are eligible for Risk Management Study.

To register, or to learn more about CMS' Anesthesia Crisis Management Training course go to:

MOCA® is a registered certification mark of The American Board of Anesthesiology, Inc.

Founded in 1993 CMS was one of the world's first healthcare simulation centers and continues to be a global leader in the field.

At CMS the focus is on communication, collaboration, and crisis management in order to develop skills and teamwork behaviors that are best learned actively under realistic conditions. Since it first opened in 1993, CMS has trained thousands of participants, using more than 350 different scenarios in over two thousand courses.
