Crisis Management Training For Practicing Anesthesiologists

Presented By The

Center For Medical Simulation

May 22, and September 24, 2010

Qualifies for MOCA[®] Part IV Credit

Experience Anesthesia Crisis Resource Management Training at CMS

The Center for Medical Simulation (CMS) is offering a one day course in Anesthesia Crisis Resource Management for all practicing anesthesiologists. It will be held on May 22, 2010 and will be repeated on September 24, 2010. Additional dates may be scheduled depending on demand. Tuition for the day long training session, including a continental breakfast and lunch, is \$1,500.

This course is designed for any practicing anesthesiologist seeking to practice their skills in managing critical events. Opportunities will be made available to learn skills in managing certain specific events, but the overall focus of the course is on learning the type of teamwork and generic skills needed when managing any kind of infrequent but critical event in anesthesia.

CMS, is an endorsed program in the American Society of Anesthesiologists' Simulation Education Network, and has ensured that this course complies with the American Board of Anesthesiologists' Maintenance of Certification in Anesthesia MOCA[®] Part IV simulation requirements.

To register and to learn more about CMS' Anesthesia Crisis Management Training course go to: <http://www.harvardmedsim.org/clinical-training-anesthesia.php>

MOCA[®] is a registered certification mark of The American Board of Anesthesiology, Inc.
